DOB – 25/03/2004

fathimaminzasuneer.mec@gmail.com
+91 9846540103

SKILLS & INTERESTS

- **Technical Skills:** C, C++, Python, HTML, Data Structure and Algorithms, SQL.
- **Soft Skills:** Communication, Problem Solving, Teamwork, Leadership, Adaptability, Critical Thinking, Attention to Detail
Organizational Skills, Time Management, Team Collaboration
- **Interests:** Web Development

EDUCATION

- **Govt. Model Engineering College** **8.48 | 2027**
KTU, B. Tech in Computer Science Engineering
- **Rahmania Higher Secondary School** **98.3% | 2021**
State, 12th
- **St. Joseph's Anglo-Indian Girls Higher Secondary School** **100% | 2019**
State, 10th

WORK EXPERIENCE

- **Groop Games** **Ongoing**
Intern
Technologies Used: Flutter, Dart, C++ (FFI), SQLite
Developed a high-performance trick-taking puzzle game featuring 50+ puzzles across multiple difficulty levels, leveraging a dual-solver architecture (Bo Haglund DDS + Dart Minimax) to achieve sub-millisecond solution times and optimal gameplay outcomes.

PROJECTS

- **AI Text-to-SQL Assistant**
Individual Project
Technologies Used: Python, FastAPI, React.js, TypeScript, Google Gemini, SQLite, RAG, ChromaDB, Sentence Transformers
Built an AI-powered Text-to-SQL assistant that converts natural language questions into executable SQL queries using Google Gemini. Implemented a Retrieval-Augmented Generation (RAG) pipeline with ChromaDB and Sentence Transformers for relevant database schema retrieval. Developed a FastAPI backend with SQL safety validation, query execution and ambiguity detection, along with a React-based frontend for interactive database querying.
- **Disaster Management & Resource Allocation System** **Team Size:4**
Team Member **2 Months**
Technologies Used: React, HTML, Tailwind CSS, Supabase
Built a full-stack disaster relief coordination platform enabling real-time tracking of victim requests, volunteer assignments and resource distribution. Implemented role-based dashboards and centralized data management to improve coordination efficiency, donation transparency as well as disaster response monitoring.
- **AI-Assisted Handwritten Answer Evaluation System** **Team Size:3**
Team Member **3 Months**
Technologies Used: React.js, Flask, MongoDB, Python, OCR, Google Gemini 2.0 Flash, JWT Authentication
Built a semi-automated answer evaluation platform that digitizes handwritten answer scripts using OCR and evaluates descriptive responses through Generative AI. Implemented semantic answer assessment against model answers and rubrics, providing mark suggestions with justifications. Developed secure role-based access and centralized academic record management to improve grading efficiency and consistency.

COURSES AND CERTIFICATIONS

- Completed Certification on **Data Science for Engineers** provided by **NPTEL** offered by **IIT Madras**.

ACHIEVEMENTS AND ACTIVITIES

- **Hobbies:** Reading, Henna Art
